

ACADEMIC SUCCESS FOR ALL . ACADEMIC SUCCESS

SITHEMBISO RUSERE MANIFESTO

ACADEMIC SUCCESS FOR ALL . ACADEMIC SUCCESS

Who Am I

My name is Sithembiso Rusere, a 2nd year Agriculture and Natural Resources student. I am immensely passionate about offering my assistance in enhancing the academic and personal development of my fellow students, here at our prestigious institution. Hence, I am running for the Academic and Legal Affairs Secretary position in the SRC.

Why Me

I am charismatic & confident enough to address students' inquiries, suggestions and wishes concerning their academic and personal well-being to the respective authorities.

Reflected by the duties I carry out as the Volleyball Team Captain, I am a dedicated leader. Competence is one of my best attributes as I adhere to the tasks I am assigned to do and successfully fulfil them. I also believe that as students, we are primarily affected by any decisions made by the university administration therefore. I aspire to be the students' voice in expressing our expectations and prospects in the academic and legal sector.

What I Intend To Do When Elected

1. Advocating for expeditions & practical field trips, especially for CSSTHE and CBPLG students as well

I firmly agree that experience goes a long way in reinforcing the knowledge we acquire in class; helping us gain the practical experience & giving us an appreciation of the possible jobs we will get in the future.

•

2. Providing relevant online/offline voluntary programs for students across all colleges

Voluntary programs are beneficial, not only in aiding us gain work experience even well before attachment, but boosting our curricula vitae to make us better candidates for employment even after graduation

3. Introducing Top Achievers Recognition Policy

From the Dean's list, it is important to recognize the top achievers: the students with the highest GPAs in their own programmes at the end of every semester. This policy exceptionally honours the students' high academic calibre & will be an important part of their resume.

4. Effectively arranging remedial lectures on a tutor basis, upon requests from students

With the help of class reps, I will assist the students facing academic challenges in their various programmes by linking them with lecturer-recommended student tutors

5. Promoting scientific projects & workshops in compliance with the AUSA (Africa University Sustainable Development Assembly)

Following in the footsteps of the current Academic & Legal Affairs office, I intend to activate the AUSA by hosting useful workshops that help us all become leaders in creating a sustainable Africa in our different societies.

6. Continuation of the Food and Data Aid Policy

To assist students in need, thus we all gain equal benefits from our blended learning system, as students have the right to education and equality

NOTE
