

VICTORIA JANDA
FOR
SECRETARY GENERAL

University is meant to be a space where we not only learn and gain knowledge but also to grow in every aspect of the word, in order to better our lives.

However, in an era where Covid-19 has changed the definition of normal, a true leader is not afraid to encourage people to take the first step in trying to get that back.

There is no greater honour than serving and I have been fortunate enough to lead on different levels of student governance, which has shown me what continues to contribute to the struggles of students in this era.

The Secretary-General is responsible for maintaining internal communication within the SRC, between the SRC and the administrative offices and the students.

This is my aim for this coming term, if elected.

A NEW VOICE IN A NEW ERA.

Victoria Janda

jandav@afri Cau.edu

BACKGROUND

- I am a 2.2 student studying Accounting.
- I am eloquent and can therefore effectively communicate.

AIMS

- **COMMUNICATION**-The aim here is to make communication, firstly amongst SRC members, more effective in order to achieve the overall goal. Secondly, that communication with the administration and students is clear and frequent.
- **EXECUTION OF SRC ROLES**- The SRC roles are vast, and my goal is making sure that the incoming candidates take full advantage of their ability to help the student body.
- **POST COVID FUNCTIONING OF THE SRC**- The new normal has changed, as a result, it is important for the incoming SRC to establish a suitable functionality to aid the student body.
- **REGISTRATION AND PARTICIPATION IN SPORTS AND CLUB** - As a fellow sportswoman, it strikes me as saddening that the registration process for and encouragement to join these two extracurriculars is not up to par. My aim would be to aid the efficiency and effectiveness of these processes.
